

## Discover a world of opportunities for your children

---

Rather than wait until we have raised sufficient funds, the school has agreed to purchase the resources immediately and take payment at a later date. This will allow the children currently attending the school to get maximum benefit from the new resources.

## How can you help?

---

We aim to repay the costs over the next three years.

All parents can help us achieve our target of £25,000 by:

- Attending and supporting the various PTA events
- Giving of your time to help in the various events

# DISCOVERY

Stranmillis Primary School  
PTA Fundraising Project  
2014-2017

## THE AIMS OF THE PROJECT

The school is aiming to build on its continuing success by enhancing the opportunities we provide for the children to discover their world and develop their understanding of key curricular concepts. In particular we would like to:

### 1. Extend the resources available for the teaching of reading, to:

- Widen the children's experience of the range of non-fiction and fiction texts;
- Ensure appropriate challenge for all our pupils in order to deepen their comprehension; and
- Give opportunities for pupils to make connections and comparisons across a range of quality texts.

### 2. Provide a greater range of mathematical resources to:

- Allow our children more frequently to explore key concepts through practical investigation;
- Allow our children to learn in a multi-sensory manner;
- Ensure even greater challenge in the mathematical tasks in which the children engage; and
- Increase further the children's enjoyment of mathematics.

### 3. Extend the suite of i-pads in order to:

- Facilitate high quality teaching and learning;
- Increase further the children's motivation to learn and their engagement with lessons;
- Develop the skills of independent learning; and
- Give the children a greater voice and greater opportunities to participate in lessons;

## THE COSTS

To facilitate these arrangements the following costs will be incurred:

**£4,500**

Practical equipment  
for numeracy

**£8,300**

Guided reading  
texts

**£2,000**

Topic  
books
